WEDNESDAY:Prayer Meeting, 7:15 pm What a disappointment! You had a tremendous drive, the perfect chip shot, and a brilliant putt; then your ball stopped a hairsbreadth from the edge of the cup. The birdie you thought was yours didn't materialize.

Of course, it's only a game; it doesn't really matter. But blighted hopes are not always so trivial. What if something really big passes you by? Suppose you don't get that promotion, your son's scholarship is given to someone else, an important client changes his mind, or the stock market wipes out your investment? Where do you turn? Where do you find strength to meet life's disillusionments?

Spiritual values are constant. Fortunes may shift and change but your Church stands firm. The truths and inspiration you find there give meaning, purpose, and stability to your life.

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy

larly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

CONSERVATION NEWS

Mississippi will be best in July 1966 to the Southeastern Regional meeting of the National Association of Soil and Water Conserva tion Districts, according to Scott Warfield, Gunnison, president of the Mississippi Association. Probable meeting place will be Green ville.

The group, composed of 600 delegates from 10 southeastern states, will study soil and water conservation in the Delta.

Mr. Warfield and other Missis sippians attended the 1965 Southeastern Area Conference in Lexington, Kentucky July 28-29 where delegates voted on a Mississippi meeting place for 1966.

With the Mississippi party were R. D. Morrow, Jr., Brandon; P. T. Eubanks, Sumrall: Hugh M. Arani RFD, Ruleville; B. Moseley, West Point; W. A. Powe, Hattiesburg; A. W. Carmichael, Shubuta; Henry Bridgeforth Vaughn; P D. Huston, Sylvarena and Mr. Warfield, all of ficials of the Mississippi association. Also in the group were W L. Heard and W. C. VOTE YOUR INTELLIGENCE. (not your emotions)

The Congress of the United States has enacted "The Voting Rights Bill of 1965". Unwise and unfair as we believe this Act to be, it is not the edict of a dictatorial president or the questionable interpretation of a court; it is an act of Congress! As such, the Voting Rights Act is the Law of the Land, and is binding upon Mississippi and all her citizens.

This is a fact which must be faced by every Mississippian.

Fiery oratory will not alter this fact or protect our people from its consequences. Reckless defiance of federal authority to enforce this Act will invite and, in the eyes of the

World, justify further invasions of the sovereignty of this state. Resentment displayed by Mississippians - either at the polls or in the streets - will produce

nothing of value; rather, "telling the rest of the United States to go to Hell" will make Mississippi once again the prime target of radical agitators, the prime excuse for punitive federal legislation, the favorite "whipping boy" of the nation. In today's circumstances, the most effective defense of "States' Rights" is state responsibility

... responsible, adequate action on the state, county and local level. Intelligent action. Realistic action. Calculated action.

Only through calm study and reasoned actions can Mississippians hope to thwart the efforts of those who are dedicated to the destruction of local self-government.

This is the course chosen by your duly-elected state government. The Constitutional Amendments submitted for your approval at the polls on Tuesday, August 17, are no "overnight" propositions. They are the results of months of study and planning, of seeking the best available alternative to the potential chaos promised by the federal Voting Rights Act.

TAKE YOUR STAND

negative-

The new federal Voting Rights Act suspends all literacy and character qualifications for voting, as these apply to Negroes . . . but leave the Whites subject to Mississippi's strict voter requirements. The resulting two sets of rules leave the Whites at a disadvantage. Federal registrars, from the nation at large, will be sent to Mississippi with the aim of registering all adult Negroes regardless of character or ability to read and write. Many Whites will remain

ineligible to vote The old Mississippi laws and Constitutional provisions setting qualifications for voting clearly are struck down (as they apply to Negroes) by the new federal Act; therefore, any effort through the courts to obtain relief from this Act

is unlikely to succeed.

The "attitude" Mississippians display to a watching nation is important to building support for our conservative cause, to increasing Mississippi's influence in national affairs, and to continuing the now-rapid flow of job-creating businesses and industries into our economy. Public opinion nationally, which has proven its ability to bear upon Mississippi affairs, will interpret any sizeable vote against the Amendments as a sign that ignorance and prejudice will be a sign that ignorance and prejudice will be a sign that ignorance and prejudice will be a sign that ignorance and prejudice rule Mississippl, and that the White people of this state are not interested in cooperating with their sister states for the advancement of the

nation of which we all are a part.

positive

Approval of the Amendments will mean that White Mississippians can register and vote under the same lenient rules which the federal Voting Rights Act has made applicable to Negroes. In terms of numbers, the disadvantage of the Whites under the federal Act will be removed, and 400,000 White voters can be added to the

rolls in a statewide White registration campaign. The Constitution of the United States provides that the qualifications of voters are to be fixed by the Legislature of each state. The United States Supreme Court repeatedly has announced this rule. If the Amendments win approval at the polls on August 17, all questions clouding the acceptability of Mississippi's voting laws will be removed and a legal attack will be made upon the Constitutionality of the federal Voting Rights Act, and/or upon the applicability of that Act's provisions to Mississippi, under circumstances most favorable to success.

To a watching nation, which has begun to note the significant progress Mississippi is making through responsible state government, sound fiscal policies, maintenance of law and order, and one of the most aggressive economic development programs in America, an overwhelming vote FOR the Amendments on August 17 will confirm that modern Mississippi has indeed cast off a century of negative defense and has assumed the offensive in this fight.

LEADERS OR DEMAGOGUES

The Constitutional Amendments on which you will vote August 17 are not part of a governor's program, nor are they a political issue in the factional sense. Leaders who disagree about many things agree that approval of the Amendments is the wisest course for Mississippi under today's circumstances

Who are these leaders who speak out FOR the Amendments?

They are your deflected state officials—your Governor, your Lieutenant-Governor, the presentatives, and every state officer in a position of responsibility of the House of Representatives, and every state officer in a position of responsibility who has a presentative who worked by more than two-thirds in who has expressed himself. They are your Legislators, who voted by more than two-thirds in toth houses to submit the Amendments for your vote. They are the most prominent business, tyle and educational figures in Mississippi—thoughtful, intelligent leaders who understand fully me impact upon our state of strife, disunity and the enmity of our fellow Americans.

Look and see who are the leaders FOR the Amendments. Then, look and see who is speaking out against the Amendments . . . and form your own ochisions as to which leaders are more capable, stable, and knowledgeable about the problems and opportunities confronting our state.

4-H Youths Keen

When boys and girls club work first started in the burly 1900's, the emblem was a S.H. clover symbolizing Head, Heart, Hards. Around 1911 the 4th H was added to represent itealth. Ever since, both here and in about 75 other countries, this amblem has represented the equal training of "head, heart hands and health for better living."

Health projects have grown over the years in knowledge, activities and membership, says the Cooperative Extension Service which supervises 4-H programs. And keeping fit is one important segment of the national 4-H Health program which today enrolls some 677,000 boys and girls.

It is easy to keep in good shape during summer months through sports, games, hikes, camping and outdoor work. But, cautions the 4-H Health bulletin, there is more to maintaining good health than strenuous exercise. This recent publication points out the need for three nutri-

tious meals a day, plenty of sleep, periodic physical checkups and a sensible balance of work and play. It also urges 4-H Club members to look for ways to improve family and community Individual members and clubs can win awards for doing an

outstanding job. Winners are selected by the Extension Service. Award donor and sponsor of the 4-H Health program for the last 16 years is Eli Lilly and Company. The boy or girl judged best in the state will be a delegate to the National 4-H Club Congress at Chicago next fall, and will compete for one of six \$500 scholarships. In the county, the best four club projects will be recognized with a certificate and

medals will be presented to as many as four top individuals.

Read and follow the special iron ing instructions for the texture surfaces that you will find on the all-important hang-tag or label.

Most of the quality cottons are colored by one of three methods yarn dyed, piece dyed or printed. Yarn dyed fabrics, which are extremely colorfast, come only in solids, stripes or checks. They are made of yarns dyed before the fabric is woven or knitted.

Piece dyeing, done after the fabric is woven, produces only solid colors that tend to be very fast to washing.

Printed designs are produced by using engraved blocks, metal rollers, or screens to apply the chosen dyestuff. Even though the dyes fast to washing.
